

“Dr. Vliet & Staff, I wanted to thank you so very much for making me feel welcome during my daughter's consult visit last Thursday. I have never met a better group of women in a Doctor's office! We were all so very impressed with how you conduct your business, and how we were made to feel "at home". My daughter is in some ways already feeling better, and I know it is going to take time, but you have been an answer to prayer. Thank you so very much for letting God use you to get to the root of my daughter's problems. As her mother it has been such a very hard time for me. I knew in my heart she did not have a mental issue. You gave us the answers we were looking for! I hope to see you again sometime.

God Bless and Thank you again,  
Connie, from Texas
